neyalmaga@gmail.com | +31 639 8787 93 | <https://www.linkedin.com/in/eyalmantelgabay/>

ABOUT

Clinical and health psychology researcher moving into mental health technology based in Tel Aviv, Israel. Experienced in clinical study design, behavior change frameworks (CBT, ACT, MI), with cross-cultural experience across Turkey and the Netherlands. Currently seeking UX research, behavioral science, clinical specialist, or research-adjacent product roles at Israeli mental health tech companies.

WORK EXPERIENCE

Research Intern - *Leiden University*

Sept 2023 - Sept 2024

Leiden, Netherlands

- Co-designed a study including over 140 participants analyzing the influence of cognitive load on the impact of physical activity on emotion regulation
- Trained and supervised a cohort of 10 bachelor's students in data collection, participant guidance, lab protocols, and tools for self sufficiency as researchers
- Operationalized open-ended qualitative data into coded numerical values and conducted inter-rater reliability analysis
- Co-authored the ethics committee proposal and completed the preregistration form for the submission to the oversight body of the university and review by academic journals
- Bridged cognitive load and emotional regulation frameworks with physical activity to examine mechanisms relevant to behavioural health interventions

Clinical Intern - *Çekirdek Danışmanlık (Çekirdek Clinic)*

Summer 2022

Istanbul, Turkey

- Served as an acting supervisor of roughly 10 children with developmental disorders during play therapy sessions to evaluate their interpersonal and environmental interactions
- Worked one on one with children with developmental disorders to assess their social and verbal capacities along with motor skills and other metrics
- Translated measurement instruments from English into Turkish and digitized and formalized scattered therapy notes to be categorized and accessed with ease by the clinic

Clinical Psychology Intern and Education Program Participant - *Private*

Summer 2021

French Lape Hospital

Istanbul, Turkey

- Attended lectures regarding the etiology and treatment of various psychopathologies and workshops on alternative therapy methods focusing on art therapy and psychodrama
- Interviewed inpatients to assess symptoms, understand personal backgrounds, future prognoses, and implement classroom techniques in a working environment
- Observed therapy sessions and learned best practices across three branches (1) geriatric, (2) moderate mood disorders, addiction, and psychosis, (3) severe mood disorders, addiction, and psychosis

Research Assistant - *Bilgi University Psychological Research Center*

Summer 2021

Istanbul, Turkey

- Conducted follow-up data collection and analysis for ongoing psychological research
